## Description

**SAGE Research Methods** database supports research at all levels by providing materials to guide users through every step of the research process. **SAGE Research Methods Core** includes more than 1.000 books, reference works, journal articles and instructional videos by world-leading academics from across the social sciences, including the largest collection of qualitative methods books available online.

In this session, the trainer will provide an overview of **SAGE Research Methods Core**, as well as a demonstration of different types of content and features of the platform.

## Objectives

- Get an overview of the SAGE Research Methods database
- Identify the different types of content included
- Learn the functioning of the platform and the tools available
- Improve research skills and capabilities using the database for future study and research projects

## Content

1. General overview: what *SAGE Research Methods* is and what it can support with
2. Content and tools included in *Core*
3. Database usage demonstration
4. Interactive activity (on a current assignment or project the participants are working on) with feedback
5. Questions

## Methodology

Practical demonstration of different types of content and features of the platform, followed by a practical activity for the attendees to explore the resources with feedback.

Link to the database guide: [https://urv.libguides.com/SAGE\\_research\\_methods](https://urv.libguides.com/SAGE_research_methods) (available in Catalan, Spanish and English)

## Assessment and certification

All those attendees who answer the final satisfaction survey will receive a certificate of attendance by email.
